## Summary

While this report does not capture every category of offences reported to police, it does capture offences that include crimes against person, both violent and non-violent, drug offences, and criminal traffic related offences.

Bail violations have been included in this report as it prudent to track offenders out of custody on a form of release that are reoffending. Bail violations have become a topic of concern amongst police and community. Both violent and non-violent offenders are regularly being released back to the community where the cycle of offending continues. We have seen instances of violence and even loss of life as a result.

Please find attached the summary of Q4 Criminal Statistics for an extensive review.

## Peterborough Police Service Board - Board Report

## Public Session

To: Chair and Members of the  
Peterborough Police Service Board

From: Jo-Anne Elliott, Inspector of Investigative Services

Report Date: Thursday, February 27, 2025

Meeting Date: Tuesday, March 18, 2025

Subject: Collection of Identifying Information in Certain Circumstances  
Report

### Purpose

This report is to provide an overview to the Board of the reporting requirements under Ontario Regulation 400/23 of the *Community Safety and Policing Act*, Collection of Identifying Information in Certain Circumstances – Prohibition and Duties.

### Recommendation

It is recommended that the Board receive this annual report for their information.

### Strength Impact

None

### Budget and Financial Implications

None

### Background

On January 1, 2017, Regulation 58/16 came into effect setting new standards for voluntary police-public interactions. Regulation 58/16 prohibited police officers from arbitrarily stopping and requesting identifying information from a member of the public. This Regulation was repealed on March 31, 2024.

On April 1, 2024, Regulation 400/23 came into force as part of the changes under the *Community Safety and Policing Act*.

The Regulation applies with respect to an attempt by a police officer to collect identifying information about an individual from the individual, if that attempt is done for the purpose of inquiring into offences that have been or might be committed, inquiring into suspicious activities to detect offences, or gathering information for intelligence purposes.

Officers are required to submit a Street Check into the Records Management System when they collect, or attempt to collect, identifying information from an individual, if it is for the purposes of:

1. inquiring into offences that had been or might be committed in the absence of a reasonable suspicion;
2. inquiring into suspicious activities to detect offences in the absence of a reasonable suspicion; and/or
3. gathering information for intelligence purposes.

Notwithstanding the above, an interaction is not a regulated Street Check, if:

1. the individual is required by statute to identify themselves (e.g., traffic stop);
2. the individual is under arrest, physically or psychologically detained;
3. the officer is executing a warrant; or
4. the officer is investigating a specific crime.

All Street Checks submitted to the Records Management System are to be reviewed by the Lead Regulated Interaction verifier, which is the Investigative Services Sergeant in Charge of the Street Crime Unit. The Street Check verifier is designated by the Chief of Police to ensure that the interactions are not bias-based or racially motivated.

## **Summary**

There were no Street Checks from 2020-2024 and therefore, no requirements for analysis to ensure unbiased and non-discriminatory interactions for further disclosure on behalf of the Chief of Police in 2024.
